## Summary

Full Stack .NET & Flutter Developer | Passionate about Azure | Leader of High-Performance Teams

With over 13 years of experience, I specialize in developing scalable and efficient business solutions in .NET, JavaScript, DevOps, and Flutter for cross-platform mobile applications.

My experience includes working on healthcare IT projects, where I ensured compliance with HIPAA standards by developing secure systems for managing sensitive data, such as orders and distribution in the pharmaceutical sector.

I am a responsible, goal-oriented, and creative professional, always looking for challenging opportunities with industry-leading companies. Alongside my expertise in enterprise-level full stack solutions, I have delivered mobile applications using Flutter, strengthening my ability to design end-to-end solutions across platforms.

## Experience

**Improving** 3 years
